### **Building an Environment for Learning: The Inside Story on *Elements of the Extreme***

(Earth, water, air and fire—elements essential for life on this planet, yet destructive in their extreme forms. These natural forces embody the earliest work of philosophers and scientists to understand the makings of the universe, serving as precursors to what we now know as the fundamental elements of chemistry. Get a behind the scenes view of the development of the Rochester Museum & Science Center's latest exhibition, *Elements of the Extreme*).

Calvin Uzelmeier, Director of Featured Content, Exhibition Support and Special Projects  
Kathryn Murano-Santos, Senior Director of Collections and Exhibitions

Cost = \$38.00 per member or guest of member  
\$43.00 per non-member or guest of non-member

Make your reservations via EventBrite at:
